

A yellow speech bubble with a pointed tail pointing towards the bottom-left.

What will I see on screen?

- **You will see two circles on the left and right screen.**
- One will be a singular small circle.
- One will be a smaller circle with a larger ring around it.

- You will see two circles on the left and right screen.
- **One will be a singular small circle.**
- One will be a smaller circle with a larger ring around it.

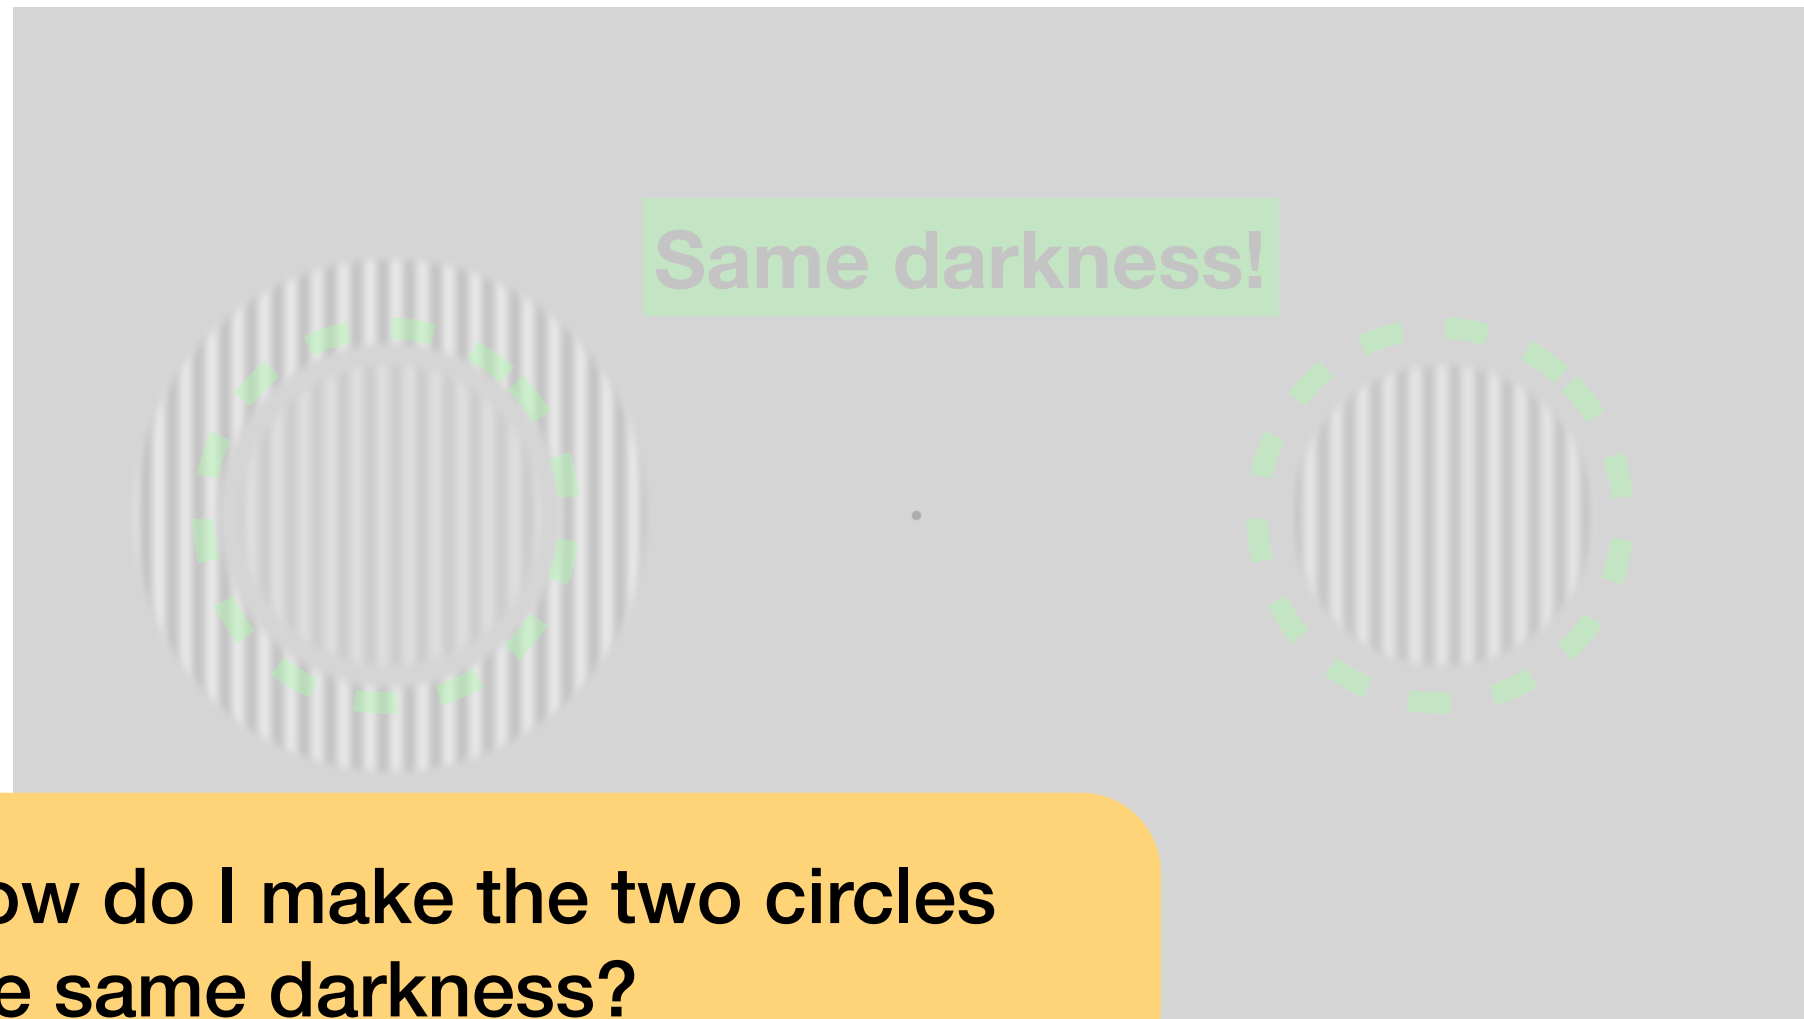

- You will see two circles on the left and right screen.
- One will be a singular small circle.
- **One will be a smaller circle with a larger ring around it.**

The **goal** of this experiment is to make the two smaller circles the same darkness.

The **goal** of this experiment is to make the two smaller circles the same darkness.

**How do I make the two circles
the same darkness?**

The **goal** of this experiment is to make the two smaller circles the same darkness.

Same darkness!

How do I make the two circles
the same darkness?

The goal of this experiment is to find out whether
smaller circles the same darkness!

With two keys!

- You can change the darkness of the singular smaller circle with two keys, to match the smaller circle in the ring.
 - Pressing the right key makes the singular circle darker.
 - Pressing the left key makes the circle lighter.

- You can change the darkness of the singular smaller circle with two keys, to match the smaller circle in the ring.
 - Pressing the right key makes the singular circle darker.
 - Pressing the left key makes the circle lighter.

- You can change the darkness of the singular smaller circle with two keys, to match the smaller circle in the ring.
 - **Pressing the right key makes the singular circle darker.**
 - Pressing the left key makes the circle lighter.

A yellow speech bubble with a pointed tail pointing towards the bottom-left corner of the slide. The bubble has rounded corners and a solid yellow fill.

Anything else to be aware of?

A yellow speech bubble with a pointed tail pointing towards the bottom-left.

Anything else to be aware of?

A blue speech bubble with a pointed tail pointing towards the bottom-right.

YES, always focus on the center

You will see a dot in the **center** of the two circles.
Please focus on this dot at all times!

You will see a dot in the **center** of the two circles. Please focus on this dot at all times!

🚫 DO NOT look directly at either of the two circles, when you are adjusting the darkness.

A yellow speech bubble with a tail pointing towards the bottom-left.

How do I make sure my response is registered?

A blue speech bubble with a tail pointing towards the bottom-right.

Use the spacebar!

- When you are satisfied that the two smaller circles are the same darkness, you can press the **spacebar** to lock in your answer and move on to the next trial.

-  Again, it is **very important** that you fixate on the middle dot when matching the two circles.
-  Please DO NOT look directly at either circle.

X 48 trials

There will be 48 matching trials in 1 block of this task, and 5 blocks total. After each block we will take a break.
